This image is a step-by-step assembly guide for a LEGO Star Wars set, specifically step 11. The background is a digital illustration of a desert planet with a large, colorful nebula in the sky. In the foreground, a LEGO structure is being assembled on a tan-colored base plate. The structure consists of several grey and black bricks, two black Technic axles, and a white curved piece. Two green, tentacle-like pieces are attached to the structure. A legend in the top left corner lists the parts to be added: one black Technic pin, one white curved piece, one black Technic pin, one black Technic pin, one black Technic pin, and one black Technic pin. The number 11 is displayed in the bottom left corner.
